Thanks for your comments on this manuscript. The authors have incorporated all the comments in revised manuscript. Series of experiments has been performed after replacing K_p with Dst as the referee suggested. Several paragraphs have been added to enhance the analysis of the results. The conclusion has been revised for more discussion on the results. The manuscript has been revised from the second revision posted on November 12 (Respond to Referee #2). A detailed revision list and the revised manuscript are in the supplement file.
