

# ***Interactive comment on “Extending the Coverage Area of Regional Ionosphere Maps Using a Support Vector Machine Algorithm” by Mingyu Kim and Jeongrae Kim***

## **Anonymous Referee #1**

Received and published: 26 October 2018

I read the revised version of the paper "Extending the Coverage Area of Regional Ionosphere Maps Using a Support Vector Machine Algorithm". The authors have been replied exhaustively to all the topics raised by the reviewer. My opinion is that the paper can be now published as it is on Annales Geophysicae.
