

Interactive comment on “Seasonal variability of atmospheric tides in the mesosphere and lower thermosphere: meteor radar data and simulations” by Dimitry Pokhotelov et al.

H. Lühr (Editor)

hluehr@gfz-potsdam.de

Received and published: 6 April 2018

Dear Authors,

Both reviewers requested major or substantial revisions of your manuscript before decision on publication. You provided answers to all the comments. Now I ask you to resubmit a revised version of the manuscript to the Copernicus system. Please mark the relevant changes, if possible with different colours for the two reviewers.

This version is planned to go through another review cycle.

Best regards, Hermann Lühr
