

***Interactive comment on “A source mechanism for magnetotail current sheet flapping” by Liisa Juusola et al.***

**Anonymous Referee #1**

Received and published: 26 June 2018

Dear Juusola et al.,

Thank you for your replies to my comments on the manuscript. It adequately answers my questions and concerns. I have no further questions or concerns. It is an interesting study on current sheet flapping and I look forward to reading future studies on this research topic.

Sincerely

---
