Dear Editor, dear Referee,

Thank you very much for reviewing our manuscript. The questions and suggestions raised by the referee are well taken in the revision. We worked on the revision, and upload our reply (only the reply should be uploaded first, before delivering the manuscript revision). As our reply includes a revised version of figure and table, we prepared our reply in a separate pdf file (see the supplementary material). We believe that the revision based on our reply meets the quality for publication as AnGeoComm.

Yours sincerely,

Yasuhito Narita and Uwe Motschmann
