# *Interactive comment on* "Mitigation of ionospheric signatures in Swarm GPS gravity field estimation using weighting strategies" *by* Lucas Schreiter et al.

**Lucas Schreiter et al.**

lucas.schreiter@aiub.unibe.ch

Received and published: 2 October 2018

Dear reviewer,

thank you for your feedback. The abstract and the conclusion section will be extended. Referee 1 pointed to a similar issue. More information about the content of the paper should be provided in these sections. This will be done.

Regarding the technical comments: editorial and language corrections are definitely necessary and will be done. The figures will be reproduced with unified and larger fonts.

Printer-friendly version

Discussion paper

Best regards, Lucas Schreiter
