Received and published: 22 July 2019

Dear Dr. Hanson, On the basis of the comments received by two reviewers, your manuscript "Investigation of Effects of Coronal Mass Ejections on Ionospheric Total Electron Content over Nsukka, South Eastern Nigeria" needs much work in order to become acceptable for publication, so I am sorry to tell you that it cannot be published in the present form. Both reviewers suggested that the manuscript should be rejected. However they both make very constructive comments and one of them considers that your work has new data and ideas. So, my suggestion to you and co-authors is to withdraw the paper first, and then resubmit it including all the suggested changes. I
