

## ***Interactive comment on “Historical Aurora Borealis Observations in Anatolia during medieval period: Implications for the past solar activity” by Nafiz Maden***

### **Anonymous Referee #1**

Received and published: 10 September 2019

The text is historically interesting but needs a deep revision, and maybe re-submission. In the attached file (Supplement/pdf) the author can find a detailed revision (including questions and suggestions). Other minor revision points will be posted later on, or after the replying of the major comments and minor issues pointed by now.

Please also note the supplement to this comment:
